## SEVERAL CYCLONES.

They Strike Nebraska, South Dakota, Iowa and Missouri.

## SEVEN WERE KILLED.

Vast Amount of Property Was Destroyed. People at Kirksville, Mo., Were Panic Stricken—Some of Injured Cann of Live.

Chamberlain, S. D., May 29.—Word has reached town of a diastrous and fatal cyclone which passed through the country in the vicinity of Bijou Hills, 25 miles south of this city last Saturday afternoon, resulting in the death of 7 persons and the serious injury of two others. The killed are:

Charles Peterson and six of his children, four boys and two girls, ranging from 3 to 15 years of age. The wife and two remaining children were so badly injured they may die.

The cyclone formed on a section in plain view of hundreds of people and moved in a southerly course, the first place reached being Aracoden, which was totally destroyed. The storm destroyed a church and a schoolhouse, after which it reached the Peterson place where the execution done was simply appalling. The dead and injured were strewn all about the premises, all being bruised and maimed in a shocking manner while the buildings were smashed to splinters.

After doing its worst here the cyclone destroyed the Creiger premises, then passing into the range of hills skirting the Missouri river where it appears to have dissolved. The path covered by the storm was only 20 rods wide and about three miles in length.

## SEVERE IN NEBRASKA.

Many Farm Houses Destroyed and Orchards, Stock and Crop Damaged.

Central City, Neb., May 29.—Probably the most destructive cyclone that ever visited this portion of Nebraska passed through the northern part of Hamilton county Saturday night, destroying from \$75,000 to \$100,000 worth of property, including 15 dwellings, 1 church, 1 schoolhouse, 2 iron bridges, barns, corncribs, outbuildings, orchards, groves, fences and stock.

The track of the storm was 16 miles in length and about 100 yards in width. During the blow a little rain fell accompanied by immense hail stones, some as large as a tin cup. In nearly every case the families sought shelter in cellars. While there were many narrow escapes, strange to say no one was seriously injured. The loss to crops will be slight, but groves and orchards are ruined. A majority of the farms were insured, but it will be impossible for several days to get the amount of individual losses. Household goods and clothing were all destroyed.

## STRIKES KIRKSVILLE.

Not Much Damage Done There, but the People Were Badly Frightened.

Kirksville, Mo., May 29.—A terrific windstorm struck this city Sunday evening followed for two hours by severe lightning and rain. A few outbuildings were unroofed or toppled over and trees uprooted. Church services were suspended, so general was the fright and excitement. One residence was unroofed and the roof was blown through another. Apprehension prevailed because Prof. Walman, who predicted Kirksville's tornado of April 28 when 23 people were killed and 100 injured, had prophesied a storm throughout Missouri. People have had clothing and valuables packed to store in cellars. Cyclone caves have been constructed. During the storm prolonged through the last three days every threatening cloud has sent hundreds trembling and praying to their cellars. Severe damage is reported from the country southwest of here.

## Destruction in Iowa.

Cedar Rapids, Ia., May 29.—A report is current here of great destruction by the storm at Tama, Ia.

## Tornado in the Territory.

Caddo, I. T., May 29.—A tornado and hail storm passed north of here Saturday doing much damage. The Katy Flyer was caught in the storm and every window light on the west side of the train broken. A part of the storm struck this place unroofing several houses and demolishing windows.

## Eighty Prospectors Missing.

Seattle, Wash., May 29.—T. B. Robinson of Oakland, Cal., who has just returned from Copper River, Alaska, says that he knows of 80 prospectors in that section who are missing. If not already dead they will die in an effort to reach civilization. Most of them went out in small parties with only provisions to last them at best a few months. Rescue parties have been unable to get trace of them.

## WRECK MOST SEVERE.

A Passenger Train Plunges into a Washout in Iowa.

## ENGINE TURNS OVER.

Cars Piled upon the Top of Each Other. Nine Persons Killed and Ten Injured, Some Seriously, Is the Result.

Waterloo, Ia., May 29.—The train from Chicago to Minneapolis, over the Rock Island and Burlington, Cedar Rapids and Northern railways, was wrecked early Sunday at the crossing of Sink creek, about four miles southeast of this place. The train consisted of six coaches, including mail and baggage cars, smoking car, two passenger coaches and sleeper. Nine persons were killed and 10 injured.

The list of the dead:

E. L. Arnold, lumberman, Minneapolis.

W. A. McLaughlin, Muskegon, Mich.

R. H. Schwett, Alton.

David Halo, Minneapolis.

F. S. Carpenter, St. Louis.

Mr. Hawkins, the Pullman conductor.

George Wainright, conductor.

One person unknown.

William Scholian, Waterloo.

A cloudburst had washed the sand and gravel roadbed, leaving the track unsupported for a stretch of 20 feet. The rails and ties held together and there was nothing to indicate the insecurity of the road. The engine struck the washout and was derailed in the ditch besides the track and behind it the cars were piled up in confusion. The mailcar tipped over and was telescoped by the baggage car behind, while the rear end of the baggage car, in turn, telescoped the smoker. The roof of the sleeper ploughed its way through the day coach while the lower half of the latter crushed through the sleeper.

## Serious Freight Wreck.

Whitesboro, Tex., May 29.—Texas and Pacific freight train No. 92, going east from here, was wrecked Sunday morning one mile west of this place. Engineer John Ison was instantly killed by the engine turning over on him and crushing his life out. The fireman, L. H. Johnson, jumped and escaped with his life, although he is thought to be seriously injured. Seven cars went in the ditch, as also the engine.

## Brakeman Killed.

Amarillo, Tex., May 29.—J. P. Brown, a brakeman, was killed and four cars of cattle overturned by a wreck on the Pecos Valley railroad, 20 miles south of here. The wreck was caused by a washout.

## KILLS HIMSELF.

A Physician With a Varied Career Shoots Himself to Death.

Kansas City, May 29.—Dr. Richmond Cornwall, a prominent local physician with a varied career, committed suicide in the home of his brother-in-law, Dr. J. C. Whittier, here, by shooting himself. He left a note saying that despondency over financial affairs prompted the act. Dr. Cornwall was 33 years and leaves a wife and child.

Early in life he was accused of taking the life of a young St. Louis girl by means of poisoned flowers.

Nine months later he eloped with a prominent St. Louis girl. She died suddenly and allegations of poisoning were made.

He was connected with the disappearance of Miss Maude Bonesteer of Kansas City in 1894, and who has never been found to this day.

In St. Louis on July 7, 1897, Dr. Cornwall killed his brother, Herbert, whom he claimed to have found in the act of beating their father. He was tried for this latter crime and found not guilty. There were no witnesses.

Four years ago Dr. Cornwall married his second wife, Miss Ika Woods, whose parents live in Michigan.

## FLOATING COAL BOATS.

Zandla and Brutus Will Supply Warships at Mission Rock With Coal.

San Francisco, May 29.—The United States collier Zandla has gone out of commission and will soon be converted into a floating coaling station. She and the Brutus will be anchored near Mission Rock and will supply warships with fuel until the government establishes a coaling station on the Rock.

The transport Sheridan is now taking coal preparatory to sailing for the Philippines. The next transport expected from Manila is the Conamang. She will be sent back with freight, as the needs for stores and supplies is so great that goods are being sent away on the China liners. The Aztec which sails for the Orient on Thursday will carry 100 tons of freight for Manila.

The City of Puebla and Zealandia bound here from Manila are now 11 days

Canned and bottled  
goods for Picnics,

Phone 63.

## GARTH. HOWELL & WEBB

from Nagasaki and will be looked for during the week.

## Fast Run From Honolulu.

San Francisco, May 29.—The steamer China which arrived from the Orient Sunday night made the run from Honolulu in the fast time of 5 days and 17 hours. She left that port three days after the transport Solace, but brings no late news of importance. She has over 900 passengers, but contrary to expectation General King is not among them.

## Struck by Lightning.

New York, May 29.—Lightning struck the large stock barn of Adrian Iselin, Jr., at Scarsdale, N. Y., Sunday night and the buildings were burned with its valuable contents. Loss \$50,000.

## Another Fruitless Effort.

Coverack, Cornwall, May 29.—Further attempts to float the American line steamer Paris has been abandoned until the next tides.

## HOT and COLD, TUB and SHOWER BATHS.

### ALL DAY SINGING

And Preaching at Bethel—A  
Good Attendance.

The singing choir of Bethel invited singers from over the country to meet with them last Sunday for a grand all-day singing.

The Eagle reporter was on hand to make notes.

Dr. F. M. Law of Bryan, by invitation, preached at 11 a. m. The sermon was a forcible one. Subject, "Two pictures; the Righteous and the Wicked." The text was the subject matter of the 1st Psalm, more especially the fourth verse.

Leaders in the singing before noon were: B. H. Wiley, Horace Furgeson, W. K. Marriott, W. S. McClung, J. P. Carnes, Luther Davis of Bethel; Eugene Shealey, C. E. Whittington, of Reliance; H. L. Bush, Benchley; S. W. Hensley, Waco. Leaders in the afternoon were: A. W. Dyess, W. S. McClung, B. H. Wiley, W. H. Wiley, Rev. H. T. Palmer, Bethel; E. L. Shealey, C. E. Whittington, of Reliance; A. J. Tabor, Sam Lee, P. H. Sikes, of Rock Prairie; H. L. Bush, Benchley; Henry Conway, Thompson Creek; S. W. Hensley, Waco.

A very fine dinner was spread at noon, and heartily enjoyed by all.

D. C. Hill, the well known Rogers Prairie merchant, was here yesterday. For Rent—The old McLelland place, after June 1st. See Miss Sue McLelland. 156tf

### WILLIAM R. RHODES.

Death in Bryan Yesterday of  
this Old and Honored Citizen.

Another old and honorable citizen of Bryan passed away yesterday in the death of Mr. William R. Rhodes. While his feeble health for months past presaged that the end of his days was about come, yet his death occurred when least expected after all.

Out for a short drive with his son, Albert, he suddenly expired while within two blocks of home.

Mr. Rhodes was born April 28, 1823, in Green county, Ala., hence was in his seventy-sixth year at his death. He came to Texas settling at Huntsville in 1850; came to Bryan in 1869, and has lived here ever since. He was the founder of the Chatham Machinery Company, though first starting the gin business in his own name, and afterward took the late Col. R. K. Chatham into the business with him. Mr. Rhodes was in this business for nearly a half century, having begun it before the civil war, and taken it up again immediately after the war. He was a Mexican war veteran, and a Mason.

Surviving him are his wife and children as follows: Mrs. Fred M. Connor, Mrs. Jas. L. Connor, of Madison county; Mrs. John Q. Tabor of San Antonio; Mrs. Lucy King, Messrs. A. M. Rhodes, H. G. Rhodes, Sidney E. and Miss Edith Rhodes, all of Bryan, and the two last named unmarried and still living at the old home.

The interment will be at the city cemetery this afternoon at 4 o'clock conducted according to Masonic rites, by Bryan Union Lodge No. 129.

Members are requested to gather at their lodge room at 3:30.

Sincere, unassuming, faithful to his duties as a man and a citizen, public spirited, and possessing a warm and generous nature, the patriarch who has just laid down the burden of life had warm friends while he lived, and leaves many such to mourn his departure, though death came while he was full of years and honors.

One Billion Dollars Insurance  
in Force.

To the Public:

At the close of business May 23, 1899, the New York Life Insurance Company has in force on its books \$1,000,168,803, excluding all applications in transit to the home office and policies issued and sent out to the company's agencies for delivery and not yet paid for; in short, a little over one billion dollars of placed and paid-for business.

The New York Life is the first company in the world to reach the one billion dollar mark, and the New York Life Insurance company therefore, ranks as the largest life insurance company in the whole world. There are life insurance companies in Europe over one hundred years old. There are life insurance companies in this country older than the New York Life, which is itself 54 years old, but there is no life insurance company in the world with which the people of the world have placed as much of their insurance as with this one.

At this particular hour, when the attention of nearly every one interested in the affairs of the world is directed to huge capitalizations, mammoth corporations and the centralizing of wealth generally, you are invited to note the fact that the New York Life Insurance Company is not a giant corporation owned by a few men; is not a stock company in any sense of the word, as it has no capital stock or shares of any kind; but it is purely and simply the most successful life insurance company of the world, made so because it is operated on purely mutual principles by its policy-holders and for its policy-holders—all the profits of the business going to its policy-holders, who alone own the company.

It is the largest, most successful Business Men's Club in the world. There are now over four hundred thousand names enrolled. The club was organized and is conducted for mutual protection and profit.

R. G. Tabor,  
Special Agent and Adjustor,  
d&w 1t Bryan, Texas.

## ALLEN ACADEMY

Removed to Bryan—Opens Thirteenth Annual Session in September.

The following announcement has been made by the principals of Allen Academy:

We take this means of announcing to the public that negotiations have been completed for the removal of Allen Academy to Bryan, Texas. In September next the school will open there its thirteenth annual session, quartered in new and commodious buildings, enjoying larger facilities, and offering increased advantages to young men seeking thorough education.

For twelve years Allen Academy has been under the same management, and each year it has raised its work and extended the sphere of its influence. During the present term we have enrolled more than two hundred students, sixty of these being boarders. We now seek a larger field and better facilities for our life-work—the establishment of a training school second to none in Texas. The people of Bryan are enthusiastic in their support of the school and have offered large inducements for its location at that place.

The number of students admitted will be limited to sixty. All the work of instruction will be done by the principals. It will be our aim to study the peculiar needs of each boy placed under our care, and we expect to accomplish higher results than heretofore has been possible.

To our friends and former patrons, we desire to express our appreciation of past support and interest. We hope to carry with us in our new field your good wishes and your patronage.

For full announcement of plans, course of study, expenses, etc., address

J. H. ALLEN,

R. O. ALLEN,

Principals.

A meeting of stockholders of Allen Academy was held at the opera house in Bryan at 2:30 p. m., Monday, May 29, 1899. On motion Prof. L. L. McInnis was elected chairman and Malcolm Carnes appointed secretary. On motion the stockholders went into the election of a board of seven directors, the following names being suggested for directors: M. Parker, J. W. Johnson, R. S. Webb, Dr. J. L. Fountain, L. L. McInnis, Walter Wipprecht, Dr. J. W. Howell. Those named were unanimously elected directors by a call of the stockholders present, eighty-five shares being represented in the vote and one vote being allowed for each share of \$25.00. A motion then prevailed by which the board of directors were given plenary powers for conducting the Allen Academy for the ensuing year.

Adjourned. Immediately after the adjournment of the stockholders' meeting the board of directors held a meeting and Prof. L. L. McInnis was elected president of the board; Walter Wipprecht, secretary; Dr. J. W. Howell, treasurer. J. W. Johnson and Dr. J. L. Fountain were appointed a committee to look after the matter of securing a charter.

Prof. J. H. and R. O. Allen were present at both the above meetings, and by invitation the former addressed the members of the board on the interests under discussion. Prof. Allen, in company with Messrs. Parker and Johnson, visited a number of places available for the location of the school yesterday morning, but as yet no selection of a site has been made.

## Excursion.

Houston and Galveston special train leaving Bryan 1:58 a. m., June 4th 1899. H. & T. C. will sell round trip tickets to Houston, \$1.75; Galveston, \$2.00. Good to return or regular trains up to and including the 9:20 a. m. train from Houston June 5th and from Galveston, on trains leaving 7:30 p. m. June 4th and 7:00 a. m. June 5th.

W. S. Wilson, Agent.

## FILIPINOS HEARTLESS.

They Mutilate the Bodies of American Soldiers Captured.

## SOME SAD SCENES.

Two Men Were Slashed in the Forehead, Their Tongues and Hearts Cut Out and Their Legs Hacked to Pieces

New York, May 29.—A letter received in Paterson, N. J., from Alexander Culross, now in the Fourth infantry in the Philippines, tells of the tortures inflicted upon captured Americans by the Filipinos:

"Two of our men," says Culross, strayed from camp and did not return. The next day we found them in the woods. Their foreheads were slashed in the form of a cross, the skulls being split. Tongues and hearts had been cut out and their legs hacked to pieces. The boys of the Fourth infantry have resolved to give no quarter hereafter, for they have reached the conclusion that every one else will soon reach—that the only good Filipino is the dead Filipino. They can't fight in the open, but steal on us at night and pick off our men. They seem to be better shots at night than in the daylight."

## MORE EVIDENCE.

Three Corpses Found Without Ears, Noses or Hearts.

Washington, May 29.—Information received here in private letters from officers serving in the Philippines, state that the Filipinos show no respect to the American dead. In one instance an officer who was on the firing line says he was shocked to see three bodies of American soldiers who had been killed in an advance and which were brought within the American lines badly mutilated. The ears of each corpse had been removed, the noses cut off and the hearts torn out. Such mutilation disproves Aguinaldo's claim that the insurgents are conducting a civilized warfare. The American troops give the Filipino dead a decent burial, and provide every comfort, and afford the best medical treatment possible to the wounded.

## TREACHEROUS NATIVES.

They Display a Flag of Truce and Then Fire Upon Americans.

Manila, May 29.—Captain Tilley, of the signal corps, with a detachment made up of other members of the corps, landed at Escalante, on the island of Negros, to pick up and repair the cable. The natives had a white flag flying over the cable house when the party landed. The latter, however, were no sooner on shore than they were fired upon by the natives. They at once took to the water and a number of them were picked up by a boat, but Captain Tilley and two native men are missing.

General Smith with a detachment of troops, has started on board a gunboat to investigate the affair. The transports Senator and Ohio have arrived.

General Otis says the campaign against the Filipino insurgents will be prosecuted by the American forces with the utmost aggressiveness possible during the rainy season.

General Lawton is of the opinion that an early settlement of the present troubles, and the close of hostilities depend largely upon the Americans giving rigid protection to the working classes in their peaceful occupations, while waging incessant war against the armed forces of the enemy from this time forward by means of guerrilla warfare.

He will show the insurgents by vigorous action on the rivers, lakes and mountains that their belief that their troops cannot campaign in the rainy season is untrue.

## TREATED SCANDALOUSLY.

Americans After Being Caught Were Flogged and Then Cut to Pieces.

New York, May 29.—The Herald's Manila dispatch, describing the loss of Captain Tilley, says that when natives fired upon cable repairing party Capt. Tilley and two men, threw themselves into the water. The commander of the Recorder, running a great risk managed to reach the launch and put off from the bank to save them, being captured by the rebels.

Meanwhile a rain of bullets was falling all around the fugitives. The second mate was picked up by the launch just as he was sinking, but was alive. He said that the last he saw of Captain Tilley the latter was swimming by his side.

The steamer was far out from shore, but those on board could see that the others were caught by the rebels, flogged and then cut to pieces.

The ship returned to Iloilo, stopped and within an hour troops were dispatched to the scene of the attack.

## Two Brothers Drowned.

Astoria, Ore., May 29.—Two brothers named Anderson were drowned in Young's bay by the capsizing of a small boat. They were near shore when the accident happened and the water was scarcely over their heads. Their bodies were recovered.

## Roosevelt to Receive the L.L.D.

New York, May 29.—It is stated that Gov. Roosevelt is to receive the L.L.D. from Columbia university during the commencement exercises next week.

## VOLUNTEER AND REGULAR.

Kansas and Nebraska Regiments as Good as Any in the World.

Chicago, May 29.—Captain Charles D. Clay, of the Seventeenth infantry, a grandson of Henry Clay, and a fighter at Santiago, has returned from Manila on sick leave. He was wounded near Malolos, March 23, 15 days after landing from the transport Grant. The bullet entered his neck and has been extracted. He has gone to his home in Lexington, Ky., but expects to go on to New York immediately for treatment.

Concerning the war in the Philippines he said:

"Volunteers vie with regulars in gallantry. The heroism of both is superb. The First Nebraska and Twentieth Kansas regiments are equal to any on earth, and the war now going on is as difficult and magnificent a passage of arms as any in our annals. A handful of men are waging a war there against incomparable odds. With 73,000, or make it with 75,000 or 100,000 men, we could sweep the island in 30 days and avert the tremendous mortality that is now certain as fate."

"General Lawton had the eye of a soldier when he said 100,000 men were needed. We have not troops enough to occupy what we conquer. The place at which I was wounded had been taken three times before and as many times abandoned because we had not force to hold it. That is the case everywhere. Manila is a great city, full of thousands of men ready to rise at a moment's notice. It requires 10,000 men to hold down Manila. Some 5000 are in the hospital or useless and that leaves barely 15,000 men to beat the Filipinos in the field and hold what is gained."

## OUT OF CIVIL SERVICE.

About Four Thousand Offices Taken from Jurisdiction of Civil Service.

Washington, May 29.—President McKinley has issued an amendment to the civil service rules, which he has had under consideration for about a year. It releases from the operations of the civil services about 4000 offices. Among such are the following: Pension examining surgeons; Indians employed in the Indian service, not connected with the Indian schools service; many places in the engineer department at large; quartermasters department at large; subsistence department; ordnance department and war department. With reference to the places outside of the war department's service it provided that they will be subject to regulations to be prescribed by the secretary of war and approved by the president thus placing these branches of services on substantially the same basis as the navy yard.

## FALLING IN LINE.

Cuban Soldiers Giving up Their Arms and Receiving Their Pay.

Havana, May 29.—Fully 100 men with rifles were waiting in line today for the opening of the office for the payment of Cuban soldiers who will give up their arms, there were also present about eight men with receipts for arms delivered up to the civil authorities. A majority of those with rifles say they have had all the fighting they want and add that they do not care who takes their arms so long as they receive their \$75. It is probable payment will continue here all day owing to the fact that it takes some time to look up each man's record.

Advices from Cienfuegos say the reports under date of May 15 of rioting on the part of the Cuban dock laborers has been exaggerated, that not over a dozen men were engaged, and that only one man was wounded, instead of one man being killed and seven wounded as first reported.

## Report Untrue.

Sacramento, May 29.—John F. Carter, secretary of the state commission of lunacy, says that the published statement to the effect that under a treaty between the United States and Japan, all insane Japanese confined in the state hospitals are to be deported, is misleading. He states that it is intended to deport only 19 Japanese, none of whom are violently insane, and that it was never the intention of the commission of lunacy to deport all such patients. He stated that there is no treaty between the two countries touching the question of insane persons. He further said that the deportation of Chinese would be carried along the identical lines with that of the Japanese.

## Ignace Pederewski Married.

New York, May 29.—A dispatch to The World from Paris says it is learned there on unimpeachable authority that Ignace Pederewski, the pianist's secretary, was married last December to Madame Elena Gorski, the divorced wife of Ledislav Gorski, the well known violinist, a former member of the Lamoureux orchestra. Mme. Gorski and Pederewski are now living quietly together awaiting a paper of dispensation before having an ecclesiastical marriage.

## Cargo of Sulphur on Fire.

Algiers, May 29.—The French steamer Alosia, Captain Coste, from Marseilla, for Palermo and New Orleans, and having 233 passengers on board, arrived here with her cargo of sulphur on fire. The cook of the vessel was asphyxiated and several passengers burned.

## Rescinded the Decree.

Washington, May 29.—The United States embassy at Brussels reported that the Belgian government has by a decree rescinded the interdiction upon the import of American cattle. The decree takes effect May 31.

## PARDON AGAIN REFUSED.

British Government Will Not Yet Release Mrs. Maybrick from Prison.

Washington, May 29.—Great Britain has again refused the request of the United States that Mrs. Maybrick be pardoned. This is the result of another application for her release by Ambassador Choate, who has just cabled to Secretary Hay the answer he has received from the British foreign office. Sincere regret is expressed in official circles that the British government is still unable to see its way clear to freeing the hapless woman. Despite the discouragement attendant upon the reiterated declaration of Great Britain to grant the request of this government, it is the intention of the administration to continue its efforts in Mrs. Maybrick's behalf.

When Ambassador Choate was given his formal instructions in February, just before he left for Great Britain, he was directed to leave no stone unturned to secure clemency for Mrs. Maybrick, and at the proper time to make representation to the British government. He complied with his instructions several weeks ago, and the British foreign office consented to look into the matter again. After a reasonable time had elapsed during which it is presumed the case was reviewed, the reply was returned, courteous in tone, that nothing had developed to cause any change in the conduct of the government with respect to the prisoner.

Friends of Mrs. Maybrick in this country, who have not, however, been advised of this latest development in her case, are still memorializing the state department and the British government in her behalf. The state department has just received from a league organized to secure Mrs. Maybrick's release, a long statement reciting the facts, and pleading that she be restored to liberty. This memorial will probably be officially transmitted to the British government for its information.

In July, Mrs. Maybrick will have been 10 years in prison as a result of the sentence imposed upon her, in consequence of the finding of the jury that she was guilty of administering arsenic to her husband, a rich Liverpool merchant.

## THE ROLLS FICTITIOUS.

Roster of the Cuban Army is in a Very Muddled Condition.

Havana, May 29.—There were 111 applicants Sunday for shares in the \$3,000,000 which the United States have offered as gratuity to the Cuban troops. Thirty were given \$75 each. The others were not on the rolls, although they had guns which they were ready to turn in, and certificates of service.

The United States military authorities consider that the rolls are very unreliable. Indeed the opinion is freely expressed that a large proportion of the names are fictitious and that the rolls omit a majority of the names of those rightly entitled to share in the gratuity. The object of this, apparently, is to discredit the entire proceedings and to show the Cuban public that a large number of the troops refused to take American money.

Lieutenant Colonel George M. Randall, of the Eighth United States infantry, the commissioner superintending the distribution here, went carefully over the rolls of one battalion with its commandant. He pointed out 34 names of men who are dead and names of others who had not been heard of outside the rolls. Of those paid 25 turned in arms—Mausers, Remingtons and carbines. The other five showed receipts from the vouchers.

The payment according to the schedule will continue until noon today in Havana city, but Colonel Randall believes it will be necessary to have additional days after a while here and extra payrolls for men who have undoubtedly seen service. He also believes that were the payment to be continued in Havana for the next three days, at least 99 per cent of those entitled to apply would do so. Most of those who received shares Sunday asserted that they only heard by accident that the distribution was now actually taking place. Colonel Randall will send to Senor Perfecto Lacoste, the mayor, all the arms turned in.

## Arbitration Settled Upon.

The Hague, May 29.—Andrew D. White, United States ambassador to Germany and chief member of the American delegation to the international peace conference, announces that he will bring forward the arbitration proposal in a few days. Details of the proposition are not yet completed. The principle of arbitration has already been admitted, and the question of the permanence of an arbitration tribunal, a careful canvass shows a majority of the committee are favorable.

## Canada to Be Eliminated.

Washington, May 29.—Canada will be eliminated from the settlement of the Alaska boundary question. The situation is exceeding dangerous and Great Britain will coerce the Canadian colony. The United States will make no more concessions.

## Family Burned to Death.

Savannah, May 29.—Advices from Hardeeville, S. C., report the burning to death of Jacob Solomons, his wife and seven children in a fire which destroyed their house. The house was located on the Oestrecher farm near Hardeeville.

## Railroad Ordered Sold.

Cincinnati, May 29.—Judge Thompson of the United States court has ordered the sale of the Baltimore and Ohio Southwestern road.
